Sign of the Big S,

JEWELLING WATCHES.—The public are respectfully notified that I have in my employ two of the best watch workmen in the country, and am prepared to do all kinds of Watch repairing superior to any shop in the West.

Fig. Alien, who is now in my employ, stood A, No. I, as a Watch-Jeweller and maker of all the different parts connected with a Watch. I can now have all kinds of Watches Jewelled, and any part made uses or repaired in a manner that cannot be done short of New York or Philadelphia. We can do work that cannot be done either in Louisville or Cincinnati, this is saying a good deal for Indianapolis, nevertheless it is true. We take the rough stone and make all our Jewels, so we know they are good and right. Now bring on your most difficult jobs that cannot be done at other shops, and if I do not have them done up to give entire satisfaction, I will pay for the Wutch. Shop under Capital House.

DR. MAYNARD'S COLLODION.—A new and elegant remedy for Burns, Bruises, Cuts, Sealds, sore Nipples, Chilblains, and all diseases of the skin.

Tt is also much preferable to Court Plaster, being nearly the color of the skin, and forming an artificial Cuticle, that will remain unaffected by wasning till the wound is healed.

This article, invented and originally applied to Surgery by J. P. Maynard, M. D., in 1847, has been found by all Surgeons who have tested it, far superior and more convenient than any former means of dressing Wounds. It has also been substituted advantageously for Plaster Cloth, Sutures, Bandages, &c., in Surgical operations. It is not acted upon by water, and adheres with almost incredible tenacity to the skin, keeping the edges of the wound closely together, and causing it to heal with hardly a preceptible scar.

# States.

Having come to the United States to avail myself, for the cause of my country, of the sympathy which I had reason to believe existed in the heart of the nation, I found it my duty to declare, in the first moments of my arrival, that it is my mission to plead the independence of Hungary and the liberty of the European Continent, of Hungary and the interty of the European Continent, before the great Republic of the United States. My principle in this respect is, that every nation has the sovereign right to dispose of its own domestic affairs, without any foreign interference; that I, therefore, shall not meddle with any domestic concerns of the United States, and I expect it from all the friends of my cause, not to do any thing in respect to myself, that could throw difficulties in my way, and, while expressing sympathy for the cause, would injure it.

It is with regret that I must feel the necessity of again making that appeal to the public opinion of this country, and particularly to those who profess themselves to be the friends of my cause, to give one proof of their sympathy by avoiding every step which might entangle me into difficulties in respect to that rule, which I have adopted, and which I again declare to be my leading principle, viz: not to mix, and not to be mixed up with demestic concerns or party questions.

Half a snaspoonful of Popsin, infined in wester, will diseast or dissolve, Five Founds of Roast Beef in about two hours, out of the stomach.

Popsin is the chief element, or great digesting principle of the Gastrie Juice, the solvent of the Food, the parifying, preserving, and stumulating agent of the stomach and intestines. It is extracted from the digestive stomach of the Oz. thus forming an Artificial Digestive Fluid, precisely like the natural Gastrie Juice in its Chemical powers, and furnishing a complete and perfect substitute for it. By the aid of this preparation, the palus and evils of indigestion and dyspepsia are removed, just as they would be by a healthy stomach. It is doing wonders for Deyspeptics, curing cases of Debulity, Emacintion, Nervous Decline, and Dyspeptic Consumption, supposed to be on the verge of the grave. The scientific evidence upon which it is based, is in the highest degree curious and remarkable.

SCIENTIFIC EVIDENCE.

Baron Liebig in his celebrated work on Annual Chemistry, says: "An Artificial Digestive Fluid, analogous to the Gastric Juice, may be resultly prepared from the mucous membrane of the stomach of the Calf, in which various articles of food, as meet and eggs, will be softened changed, and digested, just in the same manner as they would be in the human stomach."

Dr. Pereira, in his famous treatise on "Food and Diet," published by Fowler & Wells, New York, page 35, states the same great fact, and describes the method of preparation. There are few higher authorities than Dr Pereira.

Dr Combe, in his valuable writings on the "Physiology of Digestion," observes that "a diminution of the due quantity of the Gastrie Juice, obtained from the stomachs of living animals, which proved completely successful."

Dr. Graham, author of the famous works on "Vegetable Diet," says: "It is a remarkable fact in physiology, that the stomachs of animals, macerated in water, impart to the fluid the property of dissolving various articles of food, and of effecting a kind of artificial dig

digestion of them in nowise different from the natural digestive process."

Dr. Simon's great work, the "Chemistry of Man," (Lee & Blanchard, Philadelphia, 1946, pp 321-2) says: "The discovery of PEP. SIN forms a new era in the chemical history of Digestion. From recent experiments, we know that food is dissolved as rapidly in an artificial digestive fluid, prepared from Pepsin, as it is in the natural Gastric Juice itself."

Prof. Dunglison, of the Jefferson College, Philadelphia, in his great work on Human Physiology, devotes more than fifty pages to an examination of this subject. His experiments with Dr. Beaumont, on the Gastric Juice, obtained from the living human stomach and from animals, are well known. "Int all cases," he says, "digestion occurred as perfectly in the artificial as in the natural digestions."
Dr. John W. Draper, Prof. of Chemistry in the Medical College of the University of New York, is his "Text Book of Chemistry," page 396, says: "It has been a question whether artificial digestion could be pe formed—but it is now universally admitted that it may be."

be."

Dr. Carpenter's standard work on Physiology, which is in the library of every Physician, and is used as a Text Book in all the Colleges, is full of evidence similar to the above, respecting the remarkable Digestive power of Prisin, and the fact that it may be readily separated from the stomach of the ealf or ox, and used for experiments in Artificial Digestion, or as a remedy for disease of the stomach, and deficient secretion of Gastric Juice
All modern works on Chemistry, Must-ia Medica, and Physiology, and all good Medical Dictionaries, describe the character and properties of Prisin, and state many interesting details respecting it.

it.

The fact that an Artificial Digestive Fluid, or Gastric Juice, perfectly resembling the natural fluid, may be readily prepared, does not admit of question. The only wonder is, that it has not before been applied to the cure of Indigestion and Dyspepsia— so naturally does such a use suggest itself to the mind.

AS A DYSPEPSIA CURER. Dr. Houghton's Pepsin has produced the most marvellous effects, in curing cases of Debility, Emaciation Nervous Decline, and Dyspeptic Consumption. It is impossible to give the details of cases in the limits of this advertisement; but authenticated certificates have been given of more than two hundred remarkable cures, in Philadelphia, New York, and Boston alone. These were nearly all desperate cases, and the cures were not only rapid and wonderful, but perma-

cases, and the cures were not only rapid and wonderful, but permanent.

It is a great Nervous Antidote, and particularly useful for tendency to Billious Disorder, Liver Complaint, Fever and Ague, or badly treated Fever and Ague, and the evil effects of Quimine, Mercury, and other drugs upon the Digestive Organs, after a long sickness. Also, for excess in eating, and the too free use of ardent spirits. It almost reconciles health with intemperance.

OLD STOMACH COMPLAINTS

There is no form of Old Stomach Complaints which it does not seem to reach and move at once. No matter how bad they may be, it gives instant relief! A single dose removes all the unpleasant symptoms; and it only needs to be repeated for a short time to make these good effects permanent. Purity of blood, and vigor of body follow at once. It is particularly excellent in cases of Nausea, Vomiting, Cramps, Soreness of the pit of the Stomach, distress after earing, low, cold state of the Blood, Heaviness, Lowness of Spirits, Despondency, Emaciation, Weakness, tendency to Insanity, Suicide, &c.

Or. Houghton's Pepsin is sold by nearly all the dealers in fine drugs and popular medicines, throughout the United States. It is prepared in Powder and the Fluid form—and in Prescription vials for the use of Physicians.

Private Circulars for the use of Physicians, may be obtained of

Private Circulars for the use of Physicians, may be obtained of Dr. Houghton or his Agents, describing the whole process of preparation, and giving the authorities upon which the claims of this new remedy are based. As it is not a secret remedy, no objection can be raised against its use by Physicians in respectable standing and regular practice. Price One Dollar per bottle.

This instrument is light and clastic, and is made without the Steel Springs, which is objectionable, on account of their chaing the hips, &c, making them extremely unpleasant to be worn.

Ladies suffering from the above derangements, and Physicians particularly, are solicited to give them a utial in their practice, to prove their superiority over the Steel Spring and other bandages. Several Professors of Obstetrics, &c., and also a number of physicians in this city, and throughout the United States, have adopted them in their practice with the most decided beneficial results, and highly recommend and approve them. The following is from Prof. Woodward, Cincinnati, Ohio.

"I have examined and used to a considerable extent, during a practice of nearly twenty-five Years, a great variety of Spring and

Buck's Improved Patent Cooking Stove

THE subscribers offer to the public four sizes of a new pate
for Buck's Cooking Stove, greatly improved, which they co
fidently assert to be not only the most perfect baking stove in u
but the most compact and beautiful Cooking Stove ever offered
the public. Its capacity for baking (which in the old Buck's exce
ed every other stove), has been greatly increased by the addition
another oven, which enables it to bake at one time twice as m
as ordinary cooking stoves. Being made article, and having de as ordinary cooking stoves. Being made airtight, and having dampers, the fire can be regulated to suit every occasion.

Those who want a good cooking stove, one that can be relied upon, should see this new stove, as it cannot fail to please.

We warrant the Stove to give satisfaction, and can refer to hundreds of families which have them in use. We will in every case if it should fail to please upon trial, take back the stove and refund the money.

if it should fail to please upon trial, take back the stove and return the money.

We have on hand the largest and best selected stock of Stoves ever brought to the market, consisting of Premium Cooking Stoves of the latest and most approved patterns, ten plate stoves, very heavy plate, seven plate stoves, several sizes, one size to take three feet wood, suitable for churches and school houses, box stoves and air-tight stoves; also, the celebrated Stanley's and Saratoga air-tight parlor stoves, the two most beautiful patterns of air-tight stoves in the market.

In addition to the above, we manufacture and keep constantly on hand, a general assortment of Tin Ware, which we offer at wholesale or retail at very low prices. We are prepared to manufacture all kinds of work at the shortest notice.

PATENT CORPSE PRESERVEE.—They will continue to use this valuable apparatus. The object for which it is intended is perfectly to preserve corpses from decay for any length of time, without being anywise offensive to delicaey, or unseemly in appearance. The value of such a machine cunnot be estimated but by those tender feelings which long for the preservation of a departed friend; and among those who have been compelled to use it on account of the fast decaying of their friends, a general and pleasing satisfaction has been given; for none can speak too highly of such an important and useful invention. Benevolent institutions and all others who desire to delay funerals until the arrival of distant relatives, or to make suitable preparation for interment, can, by use of this machine, preserve them for weeks in a perfectly inoffensive state, allowing all to gaze upon them.
